Khaled Soliman Saad

FULL-STACK WEB DEVELOPER

01098797684 ǁ 01129703490   **E-Mail**   **GitHub**   **Linked-in**
Egypt, Sohag

Profile

I`m graduated from faculty of Computers and Artificial Intelligence at Sohag University in 2024.
I can develop websites applications, both front-end and back-end.
I`m fresh graduate, but I have been studying this track for two years, and have created many works.

PERSONAL SKILLS

Work under pressure	Team leader
Problem solving	Self development
Work with team	Learn quickly

MY MOST IMPORTANT PROJECTS

Educational Platform

Flourish

An educational platform that allows students to study all types of programming courses available.

Hospital Management System

Graduation Project

It is a system that allows the hospital director to manage hospital data in an electronic way. Within the system there is a control panel for the doctor, pharmacy, laboratory, and reception.
